Entries are organized alphabetically by surnames of first authors and are formatted with a hanging indent. Most reference entries have three components:

1. **Authors:** Authors are listed in the same order as specified in the source, using surnames and initials. Commas separate all authors. When there are seven or more authors, list the first six and then use “et al.” for remaining authors. If no author is identified, the title of the document begins the reference.
2. **Year of Publication:** In parenthesis following authors, with a period following the closing parenthesis. If no publication date is identified, use “n.d.” in parenthesis following the authors.
3. **Source Reference:** Includes title, journal, volume, pages (for journal article) or title, city of publication, publisher (for book).
